304 Grade Stainless Version
Circular version
Full installation service

400-201 Square Road Stud - Ribbed

Installation

Installation

1. Drill a hole 30mm in diameter to a depth of 80mm which should allow the crossing stud to sit level on the surface.
2. Remove dust and debris caused by drilling.
3. Following the product guidelines heat the Polymer Modified Adhesive and pour a sufficient amount to fill the drilled hole.
4. Push the stud into the hole firmly ensuring an edge seal around the entire stud
5. Allow a few minutes for the Polymer Modified Adhesive to set, if stud cannot rotate using hand and finger rotation the stud is ready for trafficking.

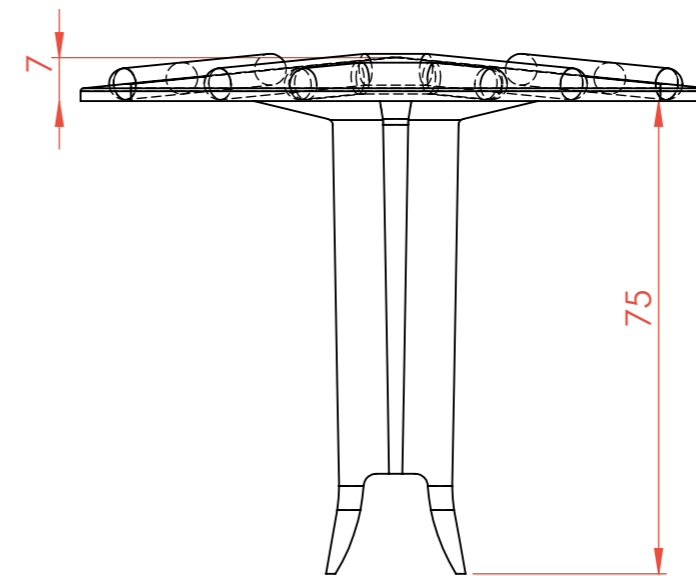

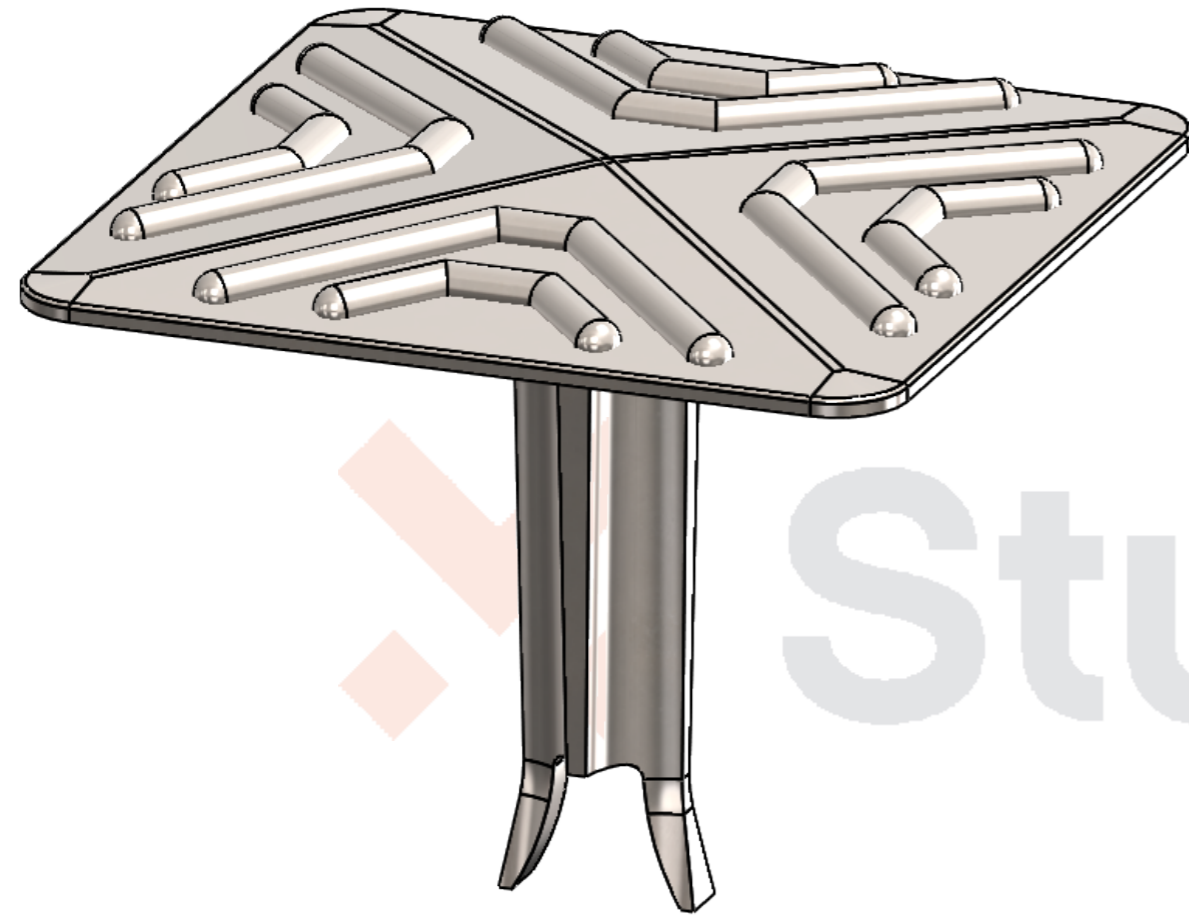

Cleaning & Maintenance

This product is designed for all weather exposure requiring only minimal maintenance as detailed below.

Aluminium: Manufactured from premium grade aluminium. Maintenance free, inspect fixing every 6 months. Add additional Adhesive where required.
